

# integrityweb

websites that work for your business!

IntegrityWeb provide a complete website design, implementation and hosting service, whatever your website requirements. Using one of the latest Content Management Systems we are able to build you a very cost effective website, whether you need a completely new site or just want fresh look to your current website.

We will design your new website to you exact requirements and once your happy we with it, we'll provide you with a secure, password protected management console. We also provide the training you need to be able to manage the site and make any content changes you might need yourself!...then it's over to you!

## IntegrityWeb CMS

Our Content management System lies at the heart of all of our websites, it allows us to provide you with a site which is both cost effective, manageable and professional. It has a modern, search engine friendly structure and menu systems and a comprehensive set of standard features which you may or may not need but which allows the flexibility to be developed with your business and it's changing needs.

Traditional website design involving complex coding and programming has been made much simpler and therefore more cost effective using modern CMS packages. In the past, keeping your website up-to-date may have been a constant battle and very expensive too! Not anymore, with a site designed by us you get a professional-looking website that you can maintain yourself without any need for coding, html or programming skills.

The IntegrityWeb CMS allows you to:

- Have a Professional website which works for your business 24/7
- Maintain your website content simply and easily, all in-house
- Develop your website as your business grows or your needs change
- Avoid any unnecessary costs for your website's future development

## eCommerce

If you need a full ecommerce website, no problem! ...with the IntegrityWeb CMS, full ecommerce facilities are able to be integrated providing powerful shopping cart, product catalogue and secure payment facilities.

Whether you need an ecommerce website designed for you from scratch or need to add this facility to an existing site, we can deliver the site you need, timely and cost effectively.
